June 23rd, 2010

Hasbro has announced the 22 cities that will be included in the latest Canadian version of its popular Monopoly board game and North Bay made the cut!

North Bay battled it out with 64 other cities across Canada to claim a property square on Hasbro's long time favourite game.

Residents and supporters furiously voted online this spring to ensure North Bay earned its very own piece of real estate in the latest Canadian version. North Bay residents and supporters have always been quick to act and are very dedicated when it comes to putting North Bay on the map. North Bay will now share a location on the world's most popular gaming map with St. John's, NL and Kelowna, BC.

The new MONOPOLY: Canada Edition will be available in stores across the country, in both English and French on June 28th, 2010.
